Experiences:

Lead Web Application Developer (Remote, Contract), Prithibi Consulting Services, WA, USA. 2018 – Present

- Design and developed [Customer Account Portal \(CAP\)](#) that is **reduce 40%** support calls and tickets of the utility companies like Golder State Water company and Kauai Water. I have worked in every step of the SDLC of this product. I have used Laravel, Vue, Bootstrap frameworks and integrate Stripe card and terminal, WellsFargo payment gateway and CC&B web services.
- Redesign and refactor a SaaS product named *Prithibi Field Service (PFS)* Application to route, monitor and organize field resources and works for reducing the effort, time and cost of the utility companies. After redesigning the UX and performance is increased by 10%. We have integrated Google MAP to route and track resource and route. We also integrated customer information system (CIS) to pull and push work orders.
- Working on a POS application named *PriCashiering (PriCash)* that is pulling information from customer information system (CIS) and make payment on-premises for the customer's utility bills. Here the service agent (cashier) can check various reports to answer customer's questions.
- Technology: Laravel, Bootstrap, Vue.js, PHP, MySQL, JavaScript, jQuery, HTML, CSS, Stripe, WellsFargo, SOAP, REST, AWS, Git, Zoho.

Technical Project Manager (Remote), DevsStation, Dhaka, Bangladesh. 2021 - Present

- I have been managing a small team to help people around the world. We help to find out the requirements, then we document that to design and develop websites, e-commerce, custom applications, APIs.
- I have reviewed and refactor codes and communicate with teams and stakeholders to successfully complete the project.
- Technology: PHP, MySQL, Laravel, Bootstrap, WordPress, Vue.js, JavaScript, jQuery, HTML, CSS, Stripe, API, SOAP, REST, AWS, Git, Trello.

Sr. Software Engineer (Remote, Part-time), Fair Pattern, NY, USA. Mar 2016 - Feb 2017

- Design and develop a Job Marketplace "*Evoneur*" and a room sharing application "*Roomies*" with Laravel, Bootstrap, JavaScript, jQuery. I have worked on sign in, registration, profile, project timeline, process, property listing and booking modules.
- Technology: Laravel, Bootstrap, WordPress, PHP, MySQL, JavaScript, jQuery, HTML, CSS, Stripe, Google, API, REST, AWS, Git, Jira.

Sr. Software Engineer (Team Lead), BASE Limited, Green Road, Dhaka, Bangladesh. Sep 2015 - Jul 2018

- Optimized and increase efficiency and loading time by 30% of a Govt. website (mopa.gov.bd) which shares 5K-10K G.O. Daily for different agencies to access.
- Design and Develop EdTech, Online-Ticket portal for multiplex, Recruiting Portal for different NGO, INGO, Govt. and Private agencies. All these applications reduce their operation cost by 20%-40% and increase their work efficiency by 30%-50%.
- Assist project manager and collaborate with clients, vendors and teams to gather requirements, analyze and prepare documentation like SRS, DFD, Use Cases, ERD, Data Dictionary and project plans.
- Technology: Laravel, CodeIgniter, Bootstrap, Vue.js, PHP, MySQL, JavaScript, jQuery, HTML, CSS, API, SOAP, REST, Git, Asana, MS Project.

Sr. Software Engineer, WilyLab Limited, Uttara, Dhaka, Bangladesh. Feb 2015 - Aug 2015

- Design and Develop application like Accounting, Invoice, ERP and Documentation Manager for different marketplaces and clients.
